ELSEVIER

Biomembranes

Vol. 1418, 1999

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

Information for Contributors vii

Regular papers

Membrane interactions of the synthetic N-terminal peptide of HIV-1 gp41 and its structural analogs
P.W. Mobley, A.J. Waring, M.A. Sherman and L.M. Gordon (USA) 1

C1q Binding to liposomes is surface charge dependent and is inhibited by peptides consisting of residues 14–26 of the human C1qA chain in a sequence independent manner
A.J. Bradley, D.E. Brooks, R. Norris-Jones and D.V. Devine (Canada) 19

Modulation of Ca^{2+}-dependent anion secretion by protein kinase C in normal and cystic fibrosis pancreatic duct cells
H.S. Cheng, W.S. Wong, K.T. Chan, X.F. Wang, Z.D. Wang and H.C. Chan (China, Hong Kong) 31

The effect of hypericin and hypocrellin-A on lipid membranes and membrane potential of 3T3 fibroblasts
R. Chaloupka, T. Obšil, J. Plášek and F. Sureau (Czech Republic, France) 39

Regulation of Ca^{2+} transport by sarcoplasmic reticulum Ca^{2+}-ATPase at limiting $[Ca^{2+}]$
M.C. Berman (South Africa) 48

Transbilayer movement and distribution of spin-labelled phospholipids in the inner mitochondrial membrane
P.F. Gallet, A. Zachowski, R. Julien, P. Fellmann, P.F. Devaux and A. Maftah (France) 61

Interaction of cationic liposomes and their DNA complexes with monocytic leukemia cells
P. Pires, S. Simões, S. Nir, R. Gaspar, N. Düzgünes and M.C. Pedroso de Lima (Israel, Portugal, USA) 71

Role of the intracellular domain of the β subunit in Na,K pump function
H. Abriel, U. Hasler, K. Geering and J.-D. Horisberger (Switzerland) 85

Nisin promotes the formation of non-lamellar inverted phases in unsaturated phosphatidylethanolamines
R. El Jastimi and M. Lafleur (Canada) 97

Stabilizing effect of an S-layer on liposomes towards thermal or mechanical stress
C. Mader, S. Küpcü, M. Sára and U.B. Sleytr (Austria) 106

Water transport by the bacterial channel α-hemolysin
S. Paula, M. Akeson and D. Deamer (USA) 117

Isolation of a French bean (*Phaseolus vulgaris* L.) homolog to the β-glucan elicitor-binding protein of soybean (*Glycine max* L.)
A. Mithöfer, J. Fliegmann and J. Ebel (Germany) 127

Probing DMPG vesicle surface with a cationic aqueous soluble spin label
K.A. Riske, O.R. Nascimento, M. Peric, B.L. Bales and M.T. Lamy-Freund (Brazil, USA) 133

Potassium ion efflux induced by cationic compounds in yeast
E. Enríquez-Freire, R. López and A. Peña (Mexico) 147

Activated stellate (Ito) cells possess voltage-activated calcium current
H. Oide, M. Tateyama, X.-E. Wang, M. Hirose, T. Itatsu, S. Watanabe, R. Ochi and N. Sato (Japan) 158

Cellular uptake of cationic lipid/DNA complexes by cultured myoblasts and myotubes
A. Helbling-Leclerc, D. Scherman and P. Wils (France) 165

Determinants of potassium channel assembly localised within the cytoplasmic C-terminal domain of Kv2.1
G.N. Bentley, M.A. Brooks, C.A. O'Neill and J.B.C. Findlay (UK) 176

Docosahexaenoic acid (DHA) alters the phospholipid molecular species composition of membranous vesicles exfoliated from the surface of a murine leukemia cell line
E.E. Williams, B.D. May, W. Stillwell and L.J. Jenski (USA) 185

Self-aggregation of triadin in the sarcoplasmic reticulum of rabbit skeletal muscle
G.R. Froemming, B.E. Murray and K. Ohlendieck (Ireland) 197

The influence of vitamin K_1 on the structure and phase behaviour of model membrane systems
A. Ortiz and F.J. Aranda (Spain) 206

Benzodiazepine localisation at the lipid-water interface: effect of membrane composition and drug chemical structure
D.A. García and M.A. Perillo (Argentina) 221

Rapid reports

A novel strategy affords high-yield coupling of antibody to extremities of liposomal surface-grafted PEG chains
M. Mercadal, J.C. Domingo, J. Petriz, J. García and M.A. de Madariaga (Spain) 232
Identity of the *F52F12.1* gene product in *Caenorhabditis elegans* as an organic cation transporter
X. Wu, Y.-J. Fei, W. Huang, C. Chancy, F.H. Leibach and V. Ganapathy (USA) 239

Short sequence-paper

Molecular cloning and sequencing of the cDNA for vacuolar H^+-pyrophosphatase from *Chara corallina*
Y. Nakanishi, N. Matsuda, K. Aizawa, T. Kashiyama, K. Yamamoto, T. Mimura, M. Ikeda and M. Maeshima (Japan) 245

Announcement 251

Information for Contributors vii

Regular papers

Dual effect of alkylresorcinols, natural amphiphilic compounds, upon liposomal permeability
J. Gubernator, M. Stasiuk and A. Kozubek (Poland) 253
Molecular packing and intermolecular interactions in *N*-acylethanolamines: crystal structure of *N*-myristoylethanolamine
M. Ramakrishnan and M.J. Swamy (India) 261
Analysis of calcium-induced calcium release in cardiac sarcoplasmic reticulum vesicles using models derived from single-channel data
A. Zahradniková and I. Zahradník (Slovak Republic) 268
Antioxidant effect of dipyridamole and its derivative RA-25 in mitochondria: correlation of activity and location in the membrane
M.F. Nepomuceno, M.E. de Oliveira Mamede, D. Vaz de Macedo, A.A. Alves, L. Pereira-da-Silva and M. Tabak (Brazil) 285
Electric field-induced transient birefringence and light scattering of synthetic liposomes
N. Asgharian and Z.A. Schelly (USA) 295
A study on the interactions of surfactin with phospholipid vesicles
A. Grau, J.C. Gómez Fernández, F. Peypoux and A. Ortiz (France, Spain) 307
Enhancing effects of salicylate on tonic and phasic block of Na^+ channels by class 1 antiarrhythmic agents in the ventricular myocytes and the guinea pig papillary muscle
Y. Tanaka, I. Hisatome, J. Miyamoto, T. Urashima, K. Ikeda, Y. Yamanouchi, N. Sasaki, T. Kinugawa, K. Ogino, O. Igawa, A. Yoshida, C. Shigemasa, Y. Kurata and R. Sato (Japan, USA) 320
An X-ray diffraction study of the effect of α-tocopherol on the structure and phase behaviour of bilayers of dimyristoylphosphatidylethanolamine
X. Wang, H. Takahashi, I. Hatta and P.J. Quinn (Japan, UK) 335

Rapid report

Preferential recognition of zwitterionic dipeptides as transportable substrates by the high-affinity peptide transporter PEPT2
Y.-J. Fei, E. Nara, J.-C. Liu, C.A.R. Boyd, V. Ganapathy and F.H. Leibach (UK, USA) 344

Corrigendum

Corrigendum to: 'Calyculin A modulates the kinetic constants for the Na^+-coupled taurine transport in Ehrlich ascites tumour cells'
J. Mollerup and I.H. Lambert (Denmark) 352

Cumulative Contents, Vol. 1418 353
